AHMED ABDELSAMEE SALAH

FRONT END DEVELOPER

PROFILE

A creative mind gifted with the ability to learn new things rapidly as well as great communication skills. These two allow me to fulfil the needs to build a character that is full of success and advancing, a character that is energetic and eager to learn new things as I have always been a person who loves to add more to his knowledge and to innovate while learning from the mistakes made.

BASIC INFORMATION

E-mail: Midoelshal78@gmail.com

Marital Information: Single

DOB: 02/02/2000

Nationality: Egyptian

Phone: +20 1023075954

Military Status: Exempt

Address: Cairo, Egypt

Prior Projects

Product Builder Project

Link

Developed a dynamic React-based application for managing products with features like adding, editing, and removing items. Integrated functionality for selecting colors, categorizing products, and ensuring real-time updates with a responsive design for seamless user experience. Utilized state management tools and modern React libraries to optimize performance and usability.

Full stack To-Do App Project

Link

Developed a full stack To-Do application with user authentication (email registration and login). The project features task management, including adding, editing, and deleting to-dos, with API pagination for efficient data handling. Built using React, incorporating tools like React Router for navigation, React Query for data fetching and caching, and Axios for API interactions. Backend functionality is powered by Strapi Headless CMS, while Postman was used for API testing and documentation. Enhanced user experience with Toast notifications, Yup Schema for form validation, and Skeleton loaders for improved UI responsiveness.

EDUCATION

Bachelor of Mechanical Power Engineering (2023)

Faculty of Engineering, Helwan University, Mattaria Branch

Skills

- **Hard worker**
- **Self and fast learner**
- **Team player**
- **Analytical thinking**
- **Adaptability**
- **Good researcher**
- **Supportive**
- **Communication skills written and verbal**
- **Outstanding computer skills**
- **Leadership**

Tech Skills & Hobbies

- HTML5
- JavaScript
- TypeScript
- Bootstrap
- Redux
- Context API
- ReactQuery
- Basic knowledge of UI/UX

- CSS3
- ReactJS
- Axios
- Tailwind CSS
- Content/Rest API
- Strapi headless
- Postman

Courses and MOOCS

- Online Course | frontend (HTML-CSS-Bootstrap- React-JS) from Camp
- Online Course | (TypeScript - React - JS - Redux- Tailwind CSS) from Udemy
- Online Course | (Next-JS) (In Progress)
- Online Course | (MERN Stack) (In Progress)
